7. If an employee exhibits any of these symptoms, they **MUST BE TESTED** and test **NEGATIVE** before coming back to work.
8. The employee who is tested **MAY NOT** return to work until the **NEGATIVE** test results are shown to management (may be emailed).
9. If an employee **TESTS POSITIVE**, The CDC provides these 2 alternatives to return to work:

Symptom-based strategy. Exclude from work until:

- At least 3 days (72 hours) have passed *since recovery* defined as resolution of fever without the use of fever-reducing medications **and** improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**,
- At least 10 days have passed *since symptoms first appeared*

Test-based strategy. Exclude from work until:

- Resolution of fever without the use of fever-reducing medications **and**
- Improvement in respiratory symptoms (e.g., cough, shortness of breath), **and**
- Negative results of an FDA Emergency Use Authorized COVID-19 molecular assay for detection of SARS-CoV-2 RNA from at least two consecutive respiratory specimens collected ≥ 24 hours apart (total of two negative specimens).
